QPATHFORMER-PLATFORM-1.0 LICENSE

SPDX-License-Identifier: QPATHFORMER-PLATFORM-1.0

Copyright (c) 2026 Anthony Siljeg

---

1. Purpose

The Q-Pathformer Platform License governs the use, evaluation, and integration of the Q-Pathformer platform and its associated modules.

The license is designed to support:

- research and academic evaluation
- architectural experimentation
- governance-grade reproducibility

while preserving the integrity of the platform architecture and preventing unauthorized commercial redistribution.

---

2. Definitions

Platform
The Q-Pathformer software architecture, including runtime orchestration modules, routing systems, governance hooks, evaluation harnesses, and associated scripts.

Modules
Individual source files, scripts, or components included in the repository.

Derivative Works
Modified versions of the platform or modules.

Governance Framework
The external governance documentation and operational discipline maintained by Q-Pathformer HQ.

---

3. Grant of Rights

Subject to the terms of this license, you are granted a non-exclusive, worldwide, royalty-free license to:

1. Use the platform for research, evaluation, and internal experimentation.
2. Modify the platform source code for research purposes.
3. Publish academic analysis, benchmarks, or architectural evaluations referencing the platform.

---

4. Attribution

Any use, research publication, or derivative work must include attribution to:

Q-Pathformer Platform
Copyright (c) Anthony Siljeg

Attribution must appear in:

- documentation
- research papers
- software acknowledgments
- derivative repositories

---

5. Redistribution Restrictions

You may **not**:

- redistribute the platform or derivative builds as a commercial product
- sublicense the platform
- remove license headers or attribution notices
- present derivative systems as the original Q-Pathformer platform

Distribution of modified versions requires written authorization from Q-Pathformer HQ.

---

6. Research and Educational Use

Universities, researchers, and educational institutions may use and modify the platform for:

- academic research

- teaching
- non-commercial experimentation

Redistribution of full platform builds is not permitted without authorization.

---

7. Enterprise and Strategic Licensing

Commercial or government deployments of the platform require a separate enterprise or strategic agreement with Q-Pathformer HQ.

These agreements may provide additional rights including:

- production deployment
- internal distribution
- integration into proprietary systems

---

8. Safety and Governance Requirements

Users must not deploy the platform in ways that:

- violate applicable laws or regulations
- bypass governance safeguards
- remove audit logging or traceability mechanisms

---

9. No Warranty

The platform is provided **“as is”**, without warranty of any kind.

The authors are not liable for damages arising from use of the software.

---

10. Termination

This license terminates automatically if the terms are violated.

Upon termination, all use and distribution must cease.

---

11. Governing Principles

The Q-Pathformer platform is developed with the following principles:

- reproducibility
- auditability
- governance-aligned AI development

These principles form part of the ecosystem governance but do not impose legal obligations beyond this license.
